

Data Protection Consultancy

Fact sheet

Our specialists help businesses reduce the risk associated with privacy obligations and leverage the value in their personal data, safely. We help you navigate the legal and regulatory complexities of data protection regulations, such as the UK GDPR, enabling you to achieve your goals, whilst maintaining compliance.

Your challenges

Reliance on personal data grows and businesses continue to innovate against a backdrop of enhanced privacy regulation, changing consumer privacy expectations, and demands for profitability. As a result, businesses face a complicated regulatory, reputational, and operational data privacy risk environment.

At a glance

- A partner that helps you operationalise data protection and privacy.
- Build your businesses processes, systems, and software securely the first time around. No need to retrofit.
- Design and implementation of strategies to help you embed a successful data protection operating model.
- Maturity assessments to understand risk levels of your organisation and acquisitions.

Benefits

Demonstrate compliance against regulations such as the UK GDPR.

Avoid reputational damage and financial penalties.

Enable growth through qualified new uses of data.
